## Planting the Seeds of Community

2009 - 2010

---

**The Millis Garden Club strives to enhance the  
natural beauty of our own surroundings and that  
of our community--through the horticultural  
education of members--while cultivating new  
friendships in the process.**

The Millis Garden Club invites community residents who share an interest in all things horticulture to join us.

The Millis Garden Club was established in September 2004 primarily as an educational and civic venue for those who share a common passion--horticulture in its many forms. Our members also wish to contribute to the existing beauty of our landscape.

Our educational programs and workshops are designed to inspire, educate and stimulate, and offer our community the opportunity to grow with us.

The Millis Garden Club sponsors community projects, local field trips, fundraising events and educational programs throughout the year.

Program topics focus on all areas of horticulture as well as ways to contribute to the beautification of the town. Our educational programs and meetings include highly regarded speakers who offer lectures, slide presentations, workshops and demonstrations.

New members are welcome throughout the year. Monthly meetings are usually held on the third Wednesday of each month from September through June. Our main meeting location is Veterans Memorial Building (VMB), 900 Main Street (Route 109), Millis. Program topic, date and location are announced in advance and are posted on our website [www.millisgardenclub.org](http://www.millisgardenclub.org). Guests are welcome to attend Millis Garden Club's educational programs with a donation .

The Millis Garden Club proudly became members of the Garden Club Federation of MA, Inc. and the National Garden Clubs, Inc. in October 2005.

Please visit [www.gcfm.org](http://www.gcfm.org) and [www.gardenclub.org](http://www.gardenclub.org) respectively for more information about these two organizations.

### Civic Beautification

Our club designs, plants & maintains the following sites:
